OF HONGKONG. NOTICE.

COMMITTEE have the honour to lay before the residents of Hongkong the following STATEMENT, and to APPEAL for further. SUBSCRIPTIONS to enable them to redeem their Promises in regard to the Recognition to be accorded to the numerous Workers during Last Your's Plague. It will be remembered that when the Appeal

substantial, it was entimated that a sam of counts to the 30th November last. \$8,500 would result from the Libershity of the TRANSFER BOOKS of the Company

ber of Gold Medals to be awarded. It now transpires that the Reliance of the COMMITTEE upon the CHIEFUE COMMUNITY and upon the PLAGUE CONCERTS was misplaced; as, instead of sums of \$2 000 and \$1,500 stated at the time to be the sums derivable from these two sources, the total amounts actually reserved or DAY Established Myself as still due are only \$145.00 and \$416.00 respectively: in addition to this, the Estimate of the charge for Medels locally ascertained has proved

to be wide of the mark. The Committee are in a position to state that 31 800, and that a sum of at lenst \$700 will be required for Letters of Thanks, Contribution to Italian Convent, and other Outgoings.

imperial quarto. TANGLISH AND CHINESE DIC'''TONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION.

An Angle-Chinese Dictionary, published at the Daily Press Office, Hongkong, For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of latey ears been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extense. Each and every word is fully illustrated and explained, forming exercises for students of a most justructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attenuat to make the Chinese and English type correspond in the size of body thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins

and vacant spaces which have heretofore characs terized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration :-Chalmers Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwa is of 600,000 Chinese characters: Again, despite all the grammers and other elementary works as yet published, the student of this difficult language absolutely reduires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples

many as any other Dictionary hitherto pub-For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested China it cannot but be invaluable occasion-
